EXAMINER'S AMENDMENT

37 CFR 1.177(a) requires that all multiple reissue applications resulting from a single patent must include as the first sentence of their respective specifications a cross reference to the other reissue application(s). Accordingly, the first sentence of each reissue specification must provide notice stating that more than one reissue application has been filed, and it must identify each of the reissue applications and their relationship within the family of reissue applications, and to the original patent.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended by replacing the amendment of 10/21/1999 by inserting the following before the first sentence in column 1:

Notice: More than one reissue application has been filed for the reissue of Patent No. 5,291,061. The reissue applications are application numbers 09/427123 (the present application), 12/ 030045, 10/346860 (now Reissue 40061), and 08/610127 (now Reissue 36613), all of which are divisional reissues of Patent No. 5,291,061.
